AMERICAN & FOREIGN PATENTS
R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.
CHAS. MASON," *Commissioner of Patents.*
"I have no hesitation in assuring Inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
Boston, February 8, 1858.
"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."
From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents.

THE WHARF LOT, formerly called The Barlow, but now The Hammond Wharf; situated South of, and next to, the Marine Railway of W. E. & G. F. Crandall. Said Wharf Lot is fifty feet on Washington Street, running south to lot No. 2, then west sixty feet, then south fifty feet, then west, to the Channel of the Harbor, which makes it one hundred feet on the west end, or one hundred feet wide its entire length, with the exception of sixty feet.
This wharf has many advantages over any other in Newport, both from its superior depth of water and its peculiar situation, being hemmed in on all sides from wind or sea, and a sail vessel could get under weigh with any wind, and go to sea from the head of the wharf. For further particulars inquire of the subscriber, at 95 Thames Street.

DR. MOTT'S
CHALYBEATE RESTORATIVE
PILLS OF IRON.
An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion of Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.
The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:
In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.
In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land.—Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.
In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.
It is this latter property, among others which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.
In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.
In unchecked Diarrhœa even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.
In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.
In Scrofulous Tuberculous, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.
The attention of females cannot be too confidently invited to this *remedy* and *restorative*, in the cases peculiarly affecting them.
In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.
In Intermittent Fevers, it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.
No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.
Put up in neat flat metal boxes containing 60 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed

These machines are sold for $50, though capable of doing any work that can be done with any of the $100 Sewing Machines. ap1tf

The Japanese Embassy to the United States.

The Japanese Ambassador first came on board the steamer Powhatan on Saturday, the 14th day of January last, for the purpose of inspecting their accommodations. On the following Monday at noon they came for good and were received with a salute and other honors. They came without any pomp or parade, and though dignified in their bearing, they gave no evidence of pride; but rather evinced timidity at their new position. Stepping for the first time upon the deck of a steamer waiting to bear them over an ocean of which they knew nothing; to a country, their knowledge of which was very limited, and being received by all the officers in full uniform, and the marines presenting their bright arms, it would have been strange if even brave men should not have been a little embarrassed by the scene and the thoughts which all this brought up.

The sight was to them a novel one, they were surrounded by a strange people, whose language they did not understand and whose customs were new to them, but they soon overcame their timidity and the warm welcome they received made them feel at home.

The arrangements on board the Powhatan for the accommodation of the Embassy were as perfect as could be. Capt. Pearson gave up the whole of his large cabin for their special use, and nearly the whole of the fore cabin was occupied by them. Four cabins had been built on each side of the quarter deck, two in front of the Commodore's cabin and four under the hurricane deck, for the inferior officers and servants.

The Japanese method of fitting out their room and victualing themselves is somewhat peculiar. Many of their articles of food are peculiar to Japan, especially roots, some of which are two or three feet long. Rice is the main article of consumption. They eat bitter bread but no meat while there is no end to the little dishes and nice things they take with them. A galley or kitchen is prepared for their especial use. Their mats are cut to fit the room and are about three inches thick. For bedding they wear their winter cloaks, which are made of silk or cotton and stuffed with cotton to the thickness of an ordinary bed quilt. The arms are large enough for one's body and the cloak is so long that the head and feet can be wrapped up together.

Besides their own plunder they bring thirteen boxes, a dozen of fifteen feet long and about a foot and a half square, filled with presents for the "Emperor of the United States," as they call the President.

When our officers, accompanied by Mr. Hauston as interpreter, paid a visit to the Prime Minister and other heads of departments, within the Imperial castle, they were received with the greatest honors and treated to a sumptuous entertainment. The Ministers commended their Ambassadors to the kind consideration of the Commodore and officers, saying that they would be completely in the hands of strangers. Their humanity and sympathy was deeply touching.

The first Ambassador is only 35 years old. The second is all of 55, and the Counsellor about the same age. All of them are Princes, but not hereditary, and they are among the most distinguished statesmen in Japan. [illegible] some of the Embassy were sent as spies on the others is incorrect. The Counsellor is only sent to aid the others by his wisdom and experience. He is a short man, but well formed and his countenance is intelligent.

Both of the Ambassadors are rather tall and thin, with long sharp faces, dark complexion and jet black hair.

The Japanese dress their hair in a peculiar fashion. They shave it all to the skin, except around the temples and down the back of the neck. This they collect at the top of the head, and fasten with a string and then bend forward, well stiffened with pomatum in the form of a queue. They dress in silks and wear two swords.

Among the under officers is an artist, Yoraida Sagosagemon by name, who is said to be well skilled in his profession, and is a poet as well as a painter. Natsmoto Samijgo, the historian of the party, is about 30 years old, a plain and sedate looking man.

One of the richest Princes in Japan forms part of the Embassy. His name is Skahara Jhugora. His face is as light as that of most Americans, his form is graceful, and he has the airs and manners calculated to attract. He reads and speaks Dutch with facility, and is desirous of becoming acquainted with English.

The doctors are all young men, and wear their hair shaven to the quick. Anatomy and surgery are unknown in Japan, and in medicine little is done beyond roots, herbs and charms.

The Embassy has no priest with them, they do not bring any gods or idols. They apparently attach very little importance to their religion.

Condition of the People of Rome.

A correspondent of the *Commercial Advertiser*, writing from Rome, says of the condition of the poorer classes of people in that city:

There has been a great deal of suffering this Winter among the poorer classes, who form the largest portion of the population in Central Italy. This has been especially observable at Rome, where the people are greatly dependant on the strangers who have heretofore spent their winters here. The average number of foreigners passing through and remaining at Rome was last year estimated at some 50,000. This season the number has been greatly diminished on account of the political disturbances of the country, which have had the effect of keeping many persons away. In consequence of this, the numerous hotel keepers, trades-men and manufacturers, who depend upon the strangers for their support, and who in their turn furnish employment to the working classes, have been compelled to suffer seriously. The dealers, in order to raise money, have been forced to sacrifice their wares at ruinous prices, and there have been so many choice works of art for sale, with so few persons to buy, that the purchasers have had everything their own way. The natural consequence of all this is, that the handful of foreigners who have spent this season here, have been beset on every side by mendicants of all grades, from the decayed but respectable-looking gentleman, to the filthiest lump of humanity that ever wandered about on a week of alms.

The maimed, the halt, the lame, the blind, follow after the stranger, and implore him in the name of Christ to give them money. To excite sympathy, mothers even put out the eyes of their children, and in this way strive to excite compassion. These one-eyed infants, while yet suffering with the pain, are held up before strangers, that the low wails of agony may bring out a few "baiocchi."

It is not an uncommon thing to see men or women lying upon the ground, pale and ghastly, bleeding profusely from cuts which they have intentionally inflicted upon themselves. To alleviate some of this misery, the government has ordered new excavations to be made, in and about Rome, and the poor are hired to dig at the rate of twenty cents a day. It is painfully interesting to visit these places, and observe the different characters compelled by the force of circumstances to take up the shovel and hoe. Some of these creatures resemble in appearance huge bundles of rags, so horribly tattered are their clothes—others, with their beaver hats, black coats, and old kid gloves, appear more like the dilapidated remains of shabby gentility. It was curious also to notice the manner in which they all worked, but in this respect no dissimilarity existed. They all seemed to be fully aware that no prodigious amount of labor could be expected at the exceedingly low sum of twenty cents a head.—With this idea prominent in their minds, each man might be seen crawling along with a small wheelbarrow half full of dirt and a heart full of misery and despair.—When it suited their convenience they would sit down to rest, stop to talk with their friends, or strive to while away the toilsome hours, in some agreeable manner.

LOCAL ITEMS.

Interesting Facts.

In this city, in the year 1858, there were born 145 males, and of females 158, making in all, with the addition of one not specified, 304. The number of those of American parentage was 164, all others, was 140. It appears that there was one birth to every 34 inhabitants in this county. Only one county—Providence—had so large a ratio, which was 1 to 24; while Kent had only 1 to 49!

Of these, *one fourth* were first children, the average running through the State. A singular fact appears, that in the whole State, there were 147 more males than females born, and in every county there was a similar excess, *except in Newport county*, where the opposite prevailed, there being an excess of 10 females, and in the city an excess of 13!

Warwick has been very persistent in this line, as the whole number of registration shows; there being of females 180, while there are of males only 220! a difference in favor of the

The greatest *per diem* number of births, was in the month of August, and next to this, were March, November and October, in the order in which they are mentioned.

In the same year, in this city, there were 81 marriages. In the State, and in Kent, Newport and Providence, the number of marriages was remarkably less than in the previous year. In Newport city, however, there was the opposite; particularly in the month of November, was there an increase in the devotees of Hymen. The reason of this diminution and sudden increase, is doubtless to be found in the fact that for the first ten months of the year, our State was suffering severely from the financial reverses of the previous year, and it was not until near the close of the year, that business began to revive. A singular fact, and one worthy of notice and of being remembered, is, that this diminution of marriages was wholly among men and women who were Americans, native born, showing that they are thoughtful and provident. There were in the year, of marriages, 119 *less* American, than the previous year, and 39 *more* foreigners, and 23 *more* Irish.

The average age of those contracting marriage, for the State, is, of males, 27 75, of females, 24. Average of Newport city is 27 70 for the males, and 23 43 for the females, showing a better age in this city than the average of the State.

In the same year, the number of deaths in this city was 110 males and 117 females, 1 unknown. By comparing these figures with those of 1857, we find that Newport had, in the former year, an increased mortality, in common with Providence, and Washington, Bristol and Kent alone showing a diminished mortality. Washington county exhibits the least mortality of any county in the State, having 1 death to 91 inhabitants; while Bristol stands next, in the ratio of 1 to 72. Newport had a ratio of 1 to 58, the largest of any of five counties; only equalled by Providence city, which stood 1 to 41. This, it is proper to state, is not an average for Newport county, inasmuch as during the time covered by these statistics, this county, and particularly this city, was visited by a very fatal epidemic.

The average longevity of the State is 26 44 years. The average of Massachusetts, 27 27. The average of Newport county is 29 years, 2 56 years above that of the State, while Newport city averages 24 36. Providence county shows, for an average, 24 50 years, and the city, 23 96; somewhat below Newport county and city, in these respects. The other counties average about 32 years.

Our neighbors over in Jamestown seem to be the healthiest, as they average 68 years; and Tiverton stands next, being 58 21. Females throughout the State average 5 years longer in life than the males.

Another fact worthy of note is, that while persons of foreign parentage die at an average age of 16 78 years, those of American parentage average 31 07 years, *almost double*. A question which interests all of our readers is, why is there such a difference? What is its cause?

The only centenarian who died in the State during the year, was a female, a native of Africa, who died in May, in this city, aged 105.

Our citizens will long have occasion to remember that fatal year, on account of the fearful ravages of Scarlatina or Scarlet Fever. How many of our dearest jewels were ruthlessly snatched from us forever! The statistics show us that in 1858 there were no less than *sixty eight!* deaths from that disease, in this city. During December and November of 1857, there were also 25 from the same cause, making in eight consecutive months, 93 deaths, and in the period of these two years there were the large number of 107 deaths. The mortality in the First and Fifth Wards were exactly the same, being 29 each; that of the Second, 20, while the number in the Third was 19, and in the Fourth, *only* 21. Although the laws by which this disease is governed are as yet involved in obscurity, do not these figures go to show that low or wet ground, and new dwellings, are favorable to its development and fatality? May it be many long years are we are visited again by this pestilence.

In respiratory diseases, Newport county is the most favored of any portion of the State, there being only 37 deaths by consumption within the year. There was *not one* death reported from *cholera infantum*, diarrhea, *cholera-morbus*, and only six from dysentery.

According to the statistics, the occupation in which a person attains the greatest age is that of servant, the age 105. The butcher comes the nearest, 81 years; and the gardener comes next, 75 1-3 years. One tinman acquired 77 years; one teacher, 71 years; coopers, 69 years; fishermen, 68 years, and a *gentleman*, 66 3-4 years. The latter appears to be a healthy as well as pleasing business. Clergymen average 61 40 years, physicians 45 50, while lawyers are supposed to blow away, as none are known to die. The fewest years were known by a gas-fitter, and a weaver was about as bad; a milliner, hostler and cigar-maker did but little better, and the barber and washerwoman, although making some improvement, only reached 30 years. Farmers die equally of consumption and old age. Laborers suffer mostly from consumption.

We acknowledge ourselves indebted for the facts thus collected, to the "Sixth Registration Report" of the State of Rhode Island which is of great value and immense interest, and for which we are indebted to the liberality of the State.

Fish Story.

We tried, yesterday, to tell a fish story, one of the large kind, but owing to something or other—what, we have not decided, perhaps the Charleston Convention—we failed. We intended to discribe a very heavy lobster, but the types made a very ordinary matter of it. They said our lobster, measure what he did, only weighed 9 3-4 pounds. The types and scales differ upon that question, inasmuch as the scales said it weighed *nineteen* and three fourths pounds. In such a fishey question, the scales being decidedly the best authority, we think the types were wrong, and the figures should have read 19 3-4 pounds.

Important.

Clergymen, physicians, coroners, undertakers, and others, will find something worthy of attention in the following extract from the "Registration Law" of this State:

"Sec. 12. * * * * every clergyman, physician, coroner, undertaker, or clerk of the society of Friends, * * * shall cause his name and residence to be recorded in the Clerk's office of the town where he resides."

"Sec. 11. If any clergymen, physicians, undertaker, town clerk, or other person, shall willfully neglect to perform any of the duties requested of him, by this chapter, he shall be fined at the discretion of the court, not exceeding twenty dollars."

Perilous Adventure.

The propeller Bay State from Ogdensburgh arrived at Cleveland on Saturday last, reports that coming through the ice at Port Colborne, a man was discovered standing on the ice, and, through the prompt endeavors of the captain and officers, was rescued when nearly dead in consequence of the cold, hunger, and the wet state of his clothing.

His name was Alfred Denton, belonging to the schooner Geo. Thurston, which entered the ice on Sunday. He was very kindly treated, and when thoroughly warmed, reclothed and fed, was, in accordance with his desire, put ashore, to make his way to a canal for a tug, in order that the vessel might soon have relief. He left the Thurston at 7 o'clock, P. M., in company with the captain and another man, stimulated by the sickness of some of her crew and the great scarcity of provisions, to make the noble attempt to reach the shore, by walking on the lumps of ice, in order that assistance might be obtained.

After some two hours the captain and the other man returned, but Denton, being separated from them by the parting of the ice, could not, and was forced to continue on his route, every moment being immersed to his neck, and saved from drowning only by the use of a piece of board he had with him. He was picked up about eight miles from the Thurston and two from the land, at six in the evening. He declared he had about given up, and for a long time death appeared certain.

The fish trade between this State and the large cities to the South of us, is becoming every year of more importance.—Within the past ten days some eight hundred barrels of scup have been seined at Seaconnet and taken to the Philadelphia and New York markets. We understand that there are now upwards of thirty sail of small vessels in the neighborhood of Seaconnet, ready to take in the fish as fast as they are caught. They are packed in ice and are as fresh when taken to market, as when taken from the water. It is predicted that scup will be scarce this season; and they have been so for a number of seasons past. They are now sold in our market at upwards of one hundred per cent. advance on former prices. The question has never been satisfactorily settled whether the scarcity is caused by the fish being seined before they have been up the rivers to deposit their spawn, or whether they have been driven from our waters by horse mackerel, or are changing their ground. There are various opinions upon the subject. But whatever the cause may be, there is no doubt about the fact that fish in our waters are becoming more scarce every year, and hook and line fishing nearly destroyed.—*Bristol Phenix.*

Medicines.

$500 Will be Forfeited!

BY DR. CUDWORTH if failing to cure in less time than any other, more effectually and permanently with less restraint from occupation, or fear of exposure to all weather, with safe pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS,
Incident to Single and Married Ladies;
SECRET AND DELICATE DISORDERS;
Mercurial Affections; Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples, on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weakness in Youth and the more advanced at all ages of
BOTH SEXES, SINGLE OR MARRIED.
DR. CUDWORTH'S
MEDICAL INSTITUTE.
181 HIGH ST, PROVIDENCE, R. I.

Is so arranged that Patients never see or hear each other. Recollect the ONLY entrance to his office is No. 181 High street, having no connection with his residence, consequently no family interruptions; so that on no account can any hesitate applying at his office.

DR. CUDWORTH

Boldly asserts (and it cannot be contradicted, except by Quacks, who will say or do anything, even perjure themselves, to impose upon patients) that he is

THE ONLY REGULAR GRADUATE PHYSICIAN ADVERTISING IN PROVIDENCE,

SIXTEEN YEARS

Engaged in the treatment of Special diseases; a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors &c., that he is much recommended, and particularly to

STRANGERS AND TRAVELERS.

To avoid and escape Imposition of Foreign and Native Quacks, *more numerous* in Providence than most other large cities.

DR. CUDWORTH

Proudly refers to Professors and Physicians; many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

Be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know *little* of the nature and character of Special Diseases and *less* as their cure. *Some* exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; *others* exhibit Diplomas of the dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

Through false Certificates and References, and recommendations of their medicines *by the dead*, who cannot expose or contradict them: and who, besides, to further their imposition, copy from Medical books much that is written of the qualities, and effects of different herbs and plants, and ascribe *all the same* to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than is cured," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c.; so the Nostrum maker, equally ignorant, adds it to his so-called Extract, Specific, Antidote, &c.; relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, *alas!* nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer months or years, until relieved or cured by competent Physicians.

DR. CUDWORTH'S

Charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence whatever may be the disease condition or situation of any one, Single or Married.

Medicines sent by Mail and Express to all parts of the United States.

DR. MATTISON'S
REMEDIAL INSTITUTE,
—FOR THE TREATMENT OF—
Special Diseases,
No. 28 Union St., Providence, R. I.

Circulars giving full information with references and testimonials, sent by mail. Also a Pamphlet on Diseases of Women with observations on Private and Chronic *Maladies* generally, sent free by enclosing a stamp to Dr. H. N. MATTISON as above.

Dr. M. is a thoroughly educated physician of nineteen years practice, giving his whole attention to the above named diseases. Persons at a distance, therefore, having any important and difficult case in this specialty will save much time and expense by applying either personally or by letter, to the REMEDIAL INSTITUTE.

N. B.—Accommodations for patients from abroad wishing to remain in the city for a short time under treatment.

A WORD TO INVALIDS.

All who have any serious or troublesome disease will very naturally seek advice somewhere, and this leads me to say a few words on the *choice of a physician*. And first, *let all quacks, impostors and humbugs alone*. If you have an intelligent physician in your vicinity apply to him immediately, and follow his directions explicitly, and for a sufficient length of time, and he will probably cure you; if not, then apply to one who makes your disease a *specialty*, for no physician in general practice, no matter how eminent, can treat a given disease, or class of diseases, as successfully as one of the same ability who makes such diseases a *specialty*, and devotes his whole attention to them. Educated physicians hitherto have stood aloof from making private diseases a specialty, and hence they have been monopolized by quacks.—The fear of losing caste in society, or of being classed among charlatans by the profession, has too long stood in the way of this most desirable result. What disgrace is there in treating a class of diseases specially that all physicians treat in general practice? Ricord of Paris, and Acton of London, both make *Private Diseases* a specialty, and yet their fame is an enviable as it is world-wide. It is in fact the only remedy for one of the most heinous and destructive systems of quackery in private diseases as practiced in all the larger cities throughout the country.—But to return I said let quacks and impostors alone. Their advertisements fill the newspapers and are well calculated to deceive the inexperienced, made up as they are of the most extravagant *pretensions*, but without a shadow of *evidence* of the truth of what they say. Advertising in itself is no sin, but *deceptive* advertisements are an abomination; and no advertising physician is entitled to *any confidence whatever* who does not give to the public the most undoubted guarantee both of his honesty and his skill.

In offering my services in a specialty which has heretofore been almost exclusively in the hands of impostors, I ask no man to employ me who is not fully convinced that I shall treat him courteously, deal honorably and with the strictest fidelity, and give him the best possible chance for a speedy and permanent cure. H. N. MATTISON,

"A most valuable adjunct to Fish, Flesh and Fowl, and should have a place on every table."—Atlas.

ONE DAY LATER FROM EUROPE.

Arrival of the North Briton.

PRESENT FEELING IN RELATION TO THE FIGHT.

FATHER POINT, C. E., April 30.

The steamship North Briton, from Liverpool 18th, via Queenstown 19th, has arrived off this Point on her way to Quebec.

The news is one day later than that by the Vanderbilt.

The fight continued to attract great attention. The referee's decision in relation to the future had not been announced.

The London *Times* says the supporters of both men were so well satisfied that a drawn battle had been determined.

The same journal has a qualified eulogy on the fight. It says that Sayers was confident of victory in ten minutes more and that Heenan's friends requested the referee to stop the fight.

The Charleston Convention.

Advices from the Convention are to Monday. The eight Southern States which had bolted from the Convention held a meeting in St. Andrew's Hall, but had decided to take no action till that of the other Convention should assume a definite form, when, if adverse to their extreme Southern views, it was proposed to make a separate nomination.

[illegible] SEWING MACHINE.

It is more simple and more easily kept in order than other Machines.

It makes a seam which will not rip or ravel, though every third stitch be cut.

It sews from two ordinary spools, and thus all trouble of winding thread is avoided.

The same machine, by a mere exchange of spools, can be adapted to all varieties of work.

The same machine runs silk, linen threads, and common spool cotton, with equal facility.

The seam is as elastic as the most elastic fabric, so that it is free from all liability to break in washing, ironing or wear.

The stitch is more beautiful than any other made, either by hand or machine.

No one who has carefully examined the various patents now before the public can fail of seeing that this machine is the BEST ADAPTED TO ALL the wants of the family.

It runs rapidly.

It makes very little noise.

It is impossible for our stitch to rip by accident. Yet, WHEN IT IS DESIRABLE, a seam can be ripped, either all through or up to any desirable point, beyond which point, again, it is equally impossible for it to be ripped, except designedly. The same cannot be said of any other stitch.

A CARD TO THE LADIES.

DR. DUPONCO's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Church street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at [illegible] manufacturer's prices. Ladies by enclosing $1 to STURGIS & CO., Box 801, Newport Post Office, can have the Pills sent confidentially by mail to any part of the city or country.

THE subscriber having taken the agency for the sale of Burdict and Bartlett's Grecian Caoutchouc Oil Polish, is now prepared to furnish the article to store keepers at Manufacturer's prices.

This article is composed of neats foot oil and Gutta Percha, acting as a preserver of leather as well as polish. An article of this kind has long been needed, as every one knows that common blacking will not polish on oil over grease.

The attention of livery stable keepers, and those keeping carriages and harnesses, is invited to this article, as it is unsurpassed for the purpose of cleaning carriage tops, harnesses, &c. It is put up in large size boxes, convenient for the use of livery stable keepers, and also smaller sizes for the use of everybody who wish to purchase the best blacking in the market.

The copy prepared for engraving, is now ready for inspection and corrections, as it is my wish to make it much nearer a correct map than any yet issued.

The price $5. The size about 36 by 44 inches. Subscriptions will be received at 124 Thames street by CHAS. E. HAMMETT Jr.

HOWARD ASSOCIATION,
PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a Charitable Act worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their forms and to give Medical Advice Gratis, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to Furnish Medicines Free of Charge. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, express the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important and much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in sealed envelope,) free of charge, on receipt of two stamps for postage.

Address, for Report or treatment, Dr. [illegible] Consulting Surgeon, [illegible] South Ninth street, [illegible] By order of the Directors. [illegible], President, [illegible], Secretary. daw

DR. DARIUS HAM'S
AROMATIC
Invigorating Spirit.

This Medicine has been used by the public for six years, with increasing favor. It is recommended to Cure Dyspepsia, Nervousness, Heart-Burn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance.

IT STIMULATES, EXHILARATES, INVIGORATES, BUT WILL NOT INTOXICATE OR STUPEFY.

AS A MEDICINE, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the DELIRIUM TREMENS, will, almost immediately, feel the happy and healthy invigorating efficacy of Dr. Ham's Invigorating Spirit.

WHAT IT WILL DO.

DOSE.—One wine glass full as often as necessary.

One dose will remove all Bad Spirits.
One dose will cure Heart-burn.
Three doses will cure Indigestion.
One dose will give you a Good Appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and the moment the stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Cholic, either in the stomach or bowels.

A few doses will remove all obstructions to Kidney, Bladder, or Urinary organs.

Persons who are seriously afflicted with any Kidney complaints are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of the poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions should take the Invigorating Spirit three times per day; it will make you strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs and restore the bloom of health and beauty to the care-worn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cts., quarts $1.

It presents to your view every part of the world, in all the *relief, boldness, perspective,* and *sharpness of detail,* as if you were on the spot.

Photographers are everywhere exploring Europe, Asia, Africa, America, in search of the grand and the beautiful, and *the results of their skill are constantly enriching our stock.*

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ireland, Wales, France, Belgium, Holland, Switzerland, Spain, The Rhine, Versailles, St. Cloud, Fontainebleau, Tuilleries, Italy, Turkey, Egypt, Athens, the Holy Land, China, India, Crystal Palace, also Groups Historical, amusing, marriage scenes, breakfast scenes, pic-nics, statuary, etc. etc. An *exquisite assortment of Illuminated Interiors of* Palaces, Churches, and Cathedrals of France, Italy, etc., etc. The effect of these illuminated views is *most remarkable.*

Nothing can be more fascinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscope Views are the latest Photographic wonder. They are taken in the *fortieth part of a second,* and everything, *no matter how rapidly it may be moving,* is depicted as sharply and distinctly as if it had been perfectly at rest. This gives an additional value, for to the beauties of inanimate nature *it adds the charm of life and motion!* The process is a discovery of our own, and being *unknown in Europe,* we receive from London and Paris large orders for Anthony's Instantaneous Views of American life and scenery.

Among other things we have just published Stereoscopic Illustrations of the Scene of the FULTON STREET PRAYER MEETINGS, in which many hearts feel an interest. The particulars of this will be found in our catalogue.

INSTANTANEOUS VIEWS.—At the Poetry of Motion, every dancing wave of the sea, the hurrying of the industrious crowd, the throng and rush along the thoroughfares caught unawares in all unstudied attitudes of life, art and motion. American skill has been the first to accomplish it, as you will readily ascertain by calling at Williams' Stereoscopic Rooms and examine five thousand or more moving objects.

All kinds of Stereoscopic Views for sale at Williams's Rooms Cheap for Cash. Inquire for Williams' Stereoscopes.

Coal, Stoves, &c.

CITY COAL YARD.
LYKENS VALLEY FRANKLIN COAL.

THE subscribers take this method of returning thanks to their many patrons for the increased orders, from year to year, for their LYKENS VALLEY FRANKLIN COAL.

The mines from which this Coal is taken were never in so promising a condition as at present, and such improvements have been made for preparing and screening it as warrant us in saying that we believe the Coal will be shipped in better order than ever before.

The superior quality of the Franklin Coal having become fully established, the demand has rapidly increased, and an evidence of its great popularity is the fact that several dealers have adopted its name in full or in part, thereby hoping to introduce other kinds of inferior Coal by which the public have often been deceived.

Waiting your favors, we are
Respectfully Yours,

CAUTION.

Persons living at a distance should be extremely cautious of whom they order Lottery Tickets or Certificates of Packages of Tickets. The country is flooded with bogus and swindling Lotteries. Every inducement is held out to get persons to invest money in them—Capital Prizes of from $20,000 to $50,000 head their schemes—with Tickets at One Dollar. $100,000 Capital Prizes are offered, Tickets $5. All such, in every instance, are frauds, and if money is sent to them for Tickets, it is so much thrown away without the shadow of a chance of getting a prize. Beware of all Lotteries where the Capital Prize is unusually large in comparison to the price of Tickets. In every instance where large Prizes are offered for a small cost of Tickets, put it down for a certain fraud.
